AAU - Aalborg University DK

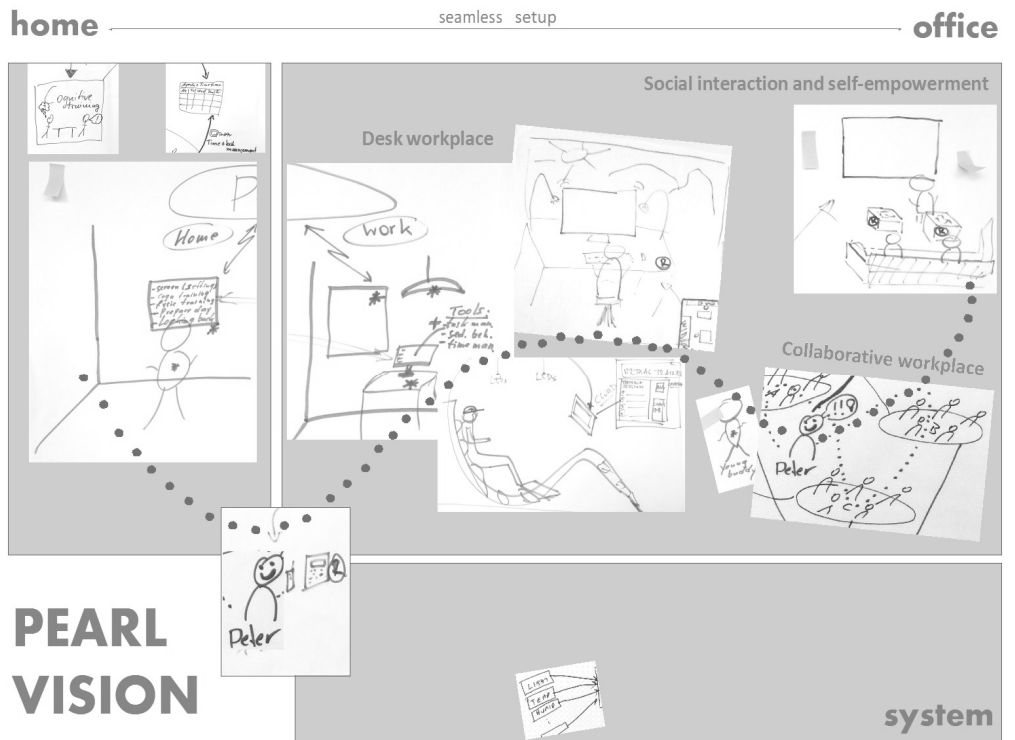

RFID-specialisten DK

**PEARL VISION**

The main objective of the PEARL project is

- ◆ To support a productive, prolonged and satisfactory involvement of older employees in working life
- ◆ Harnessing their potential as holders of experience and knowledge
- ◆ Compensating negative effects of potentially reduced physical or mental capabilities
- ◆ Adapting to specific requirements in terms of caring responsibilities
- ◆ Integrating home and working environment seamlessly

A working environment that allows older employees to alternate freely between various kinds of workplaces based on personal preferences and the nature of tasks

**Office environment**

- ◆ Private and silent places when high concentration is needed
- ◆ Spaces for exchange and collaboration between colleagues
- ◆ Rooms for training and self-empowerment

**Home environment**

- ◆ Responding flexibly to unforeseen circumstances
- ◆ Carrying over tasks into a more familiar and potentially productive setting
- ◆ Safe-guarding the home against unwanted intrusion of work matters
